Mr Yusuf: Good morning, everyone. My name's Mr Yusuf and I'm your new teacher. I hope you all enjoyed the summer holiday. Did you visit some beautiful places in Jordan? Today, you are going to write about them.

3

Kareem: I'm writing about Umm Qais. There are some Roman buildings there. How do you spell 'buildings'?

Ali: I can look up the word in the dictionary. Here it is. B-u-i-l-d-i-n-g-s.

Kareem: Can you repeat that, please?

Ali: B-u-i-l-d-i-n-g-s.

2

Kareem: How can we find information about the places?

Mr Yusuf: Use an encyclopaedia. There is a lot of information in an encyclopaedia.

Kareem: It's a big book. Where do I look?

Mr Yusuf: Look at the index. Find the number of the page there.

4

Mr Yusuf: Now check your partner's work, please.

Kareem: Your work is very good, Ali.

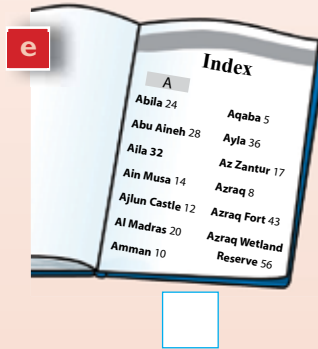

Ali: Your work is very good, too!

Mr Yusuf: Good. Now I can mark your work!

What does Kareem find out about Umm Qais in the encyclopaedia?

Umm Qais: A beautiful place in Jordan

by Kareem

Umm Qais is in the north of Jordan. It is about 110 kilometres from Amman, and it is near Irbid. In the past its name was Jadara.

- 5 There are a lot of Roman buildings in Umm Qais. They are very interesting. This is a photo of the Western Theatre. I think that this is the most beautiful building.
- 10 There is a big hill in Umm Qais. You can see Lake Tiberias from the top of the hill. It is very beautiful.
- There were walls around Umm Qais in the past. There were also Roman roads.
- 15 It is a very interesting place.
- I want to visit Umm Qais with my family.

Summer Festivals in Jordan

The Global Village Festival

I love The Global Village Festival. It happens every summer in Amman and it started in 2004. I think that it's the best summer festival. There are stalls with crafts, toys, clothes and foods from many countries in the world. I like looking at the stall with jewellery, dresses and mosaics from Jordan.

There is a food market at the festival. You can try dishes from many countries in the world. I love the dates, cakes and spices. The food is delicious!

I like the fun fair at the festival, too. It is very fun!

Thousands of people visit the festival every year.

Fatima

The Amman Summer Festival

The Amman Summer Festival is in July. It's great! There are a lot of things for children to do at the festival. There are colourful puppet shows. Children can also draw, paint, listen to stories and sing. They can make models from balloons, too!

The first Amman Summer Festival was in 2006. Lots of people come to the festival with their families every year. In my opinion, it's the best festival for children.

My homework project this week is about my city.

About my city

I live in Amman. It's the biggest city in Jordan. There are lots of interesting buildings in Amman. Some of the buildings are modern and some of the buildings are very old.

Amman was a very important Islamic town 1,300 years ago. Many people travelled to Amman from other countries to buy gold and spices. Umayyad Palace is from Islamic Amman. It's a very interesting place to visit.

Umayyad Palace

There are many modern buildings in the city. There are hotels and skyscrapers. They are very tall!

In this picture, you can see Abdoun Bridge. It goes across Wadi Abdoun so it's very long. It's tall, too.

The towers on the bridge are seventy-one metres high.

A holiday surprise

Saleem and his sister Mariam lived with their mother and father in a big city. Saleem was eleven and Mariam was nine. One morning, the children were very excited. They were ready to go on a weekend trip.

Everyone got into the car. They travelled out of the city. Saleem saw trees, farms and valleys. Then they travelled down a long road. Saleem saw rocks and mountains. Finally, the car stopped. "We're here," said Dad.

There weren't any buildings, trees or houses. They were in the desert!

"Look!" said Mariam. "I can see some tents."

"We're sleeping in a tent in the desert!" said Saleem. "I am very excited."

That night, Saleem looked at the sky. The stars were beautiful and bright. It was quiet in the desert.

"What a great holiday!" he said.

It's really important to talk to the patients, too. I've talked to five patients this morning. I've written down all of the important information about their health problems in their notes.

After I've talked to the patients, I sometimes do blood tests. The results of the tests help me to decide what medicine to give.

I've done lots of other things this morning, too! I've talked to the patients' families and I've answered their questions. Some of the patients can go home. I've checked that the patients have help when they go home. I've written prescriptions so that they can get their medicine."

My homework project this week is about the places that I have visited in Jordan.

My favourite places in Jordan

I have been to many different places in Jordan. I like the sea at Aqaba. It's a great place to go swimming! It's very hot in Aqaba in the summer, but it's not as hot as the desert! It is more than thirty-six degrees Centigrade in Wadi Rum in August.

Salt

I've also visited Jerash and Salt. Jerash is a city with a lot of Roman buildings. Many visitors go there. Jerash is big, but it is not as big as Salt. There are many hills in Salt, and also many beautiful, traditional buildings. Salt is an old city, but it isn't as old as Petra. It is fascinating and it is my favourite place in Jordan!

The Dead Sea

I've also been to The Dead Sea. In my opinion, this is the best place to swim in Jordan. It's great!

Dibeen Forest

There are some places that I haven't seen in Jordan. I haven't been to Dibeen Forest in the north of Jordan. I would like to see the birds that live there. Next month, my family is taking me to Dibeen Forest. I am very excited about our trip.

A visit to Grandpa by Hussein

Today I must be helpful.
My grandpa's ill in bed.
I visited him this morning
And this is what I said:

"Have you had your breakfast?
I can make some food for you.
Have you had any water?
I can bring that too!"

An interesting trip: Hejaz train museum

By Ghada

Last year, I went on a trip to Hejaz train museum. I went with my mum, dad and my brother, Mahmoud. I saw some old trains, maps and pictures. I went inside one of the old trains! My favourite part of the trip was looking at the train maps. The train used to go from Damascus to Medina!

- 2 On Monday, we went to a cedar forest in the mountains. It was beautiful. Cedar trees are very important in Lebanon. There is a cedar tree on the national flag.
- 3 On Tuesday, we went to Sidon. It is a city by the sea. Some of the buildings are very old. The castle in Sidon is about 800 years old.
- 4 On Wednesday, we visited Moussa Castle. A man called Moussa Abdel Karim Al Maamari built the castle. It took sixty years to build! It looks like an old castle, but it's a modern building.

We are excited about coming to see you. We'll show you all of our photos!

Does Samira like the airport?

We went to Queen Alia International Airport on Saturday. It is the biggest airport in Jordan. There is a new airport building. His Majesty King Abdullah II opened the new building in March 2013. It is very big and very modern. I think that it looks beautiful. The windows are really big. You can watch the planes take off and land. There is a mosque. There are also a lot of shops, cafes and restaurants inside the building. It's great!

My father told my brother and me about the airport while we were waiting for my uncle and aunt. The new building is more than 100,000 square metres. That's about the same size as two of the old buildings! More than 1,000 planes land and take off from the airport every week. Many people come here every year.

I liked the airport very much. A lot of other people like the airport too. The airport has won some prizes!

Traditional Jordanian crafts

by Samira

1

Embroidery

Embroidery is one of Jordan's most famous traditional crafts. In the past, girls learned to do embroidery when they were young. Many people in Jordan still do embroidery today. They embroider dresses, cushions and purses.

2

Weaving

Weaving is a very important craft. In the past, women in the desert used weaving to make tents for their families. They could weave rugs, too. Today in Mukawir, women weave rugs to sell. People take the rugs to shops in Amman and other cities and towns.

3

Mosaic making

Mosaics are part of Jordan's history. Madaba has Jordan's biggest collection of mosaics. Some of the mosaics are 2,000 years old. Today, students at the Madaba Mosaic School learn how to make mosaics. They make the mosaics from tiny squares of coloured rock.

My story - The plane journey

by Salma

It was the beginning of the school holidays. I was at the airport with my mum and dad. We were going to Aqaba to visit our cousins. It was my first journey by plane.

We checked in and then we waited for our plane. It started to rain while we were waiting for our plane. It was windy, too.

"It's okay," said Mum, "The weather is good in Aqaba." Mum gave me my favourite book. Dad stood up while I was reading. "It's time to board the plane," he said.

We climbed the stairs to the plane and we sat down. The wind got stronger while the plane was taking off. "I hope that the plane is safe," I thought. We were soon high in the sky. The pilot talked to everyone on the plane. "The wind is very bad today," he said "but don't be frightened. The plane is safe and we are landing soon."

I heard a noise while the plane was landing. "It's alright," Dad said. "It's just the wind." The plane landed safely on the ground. We arrived in Aqaba. I was very happy!

A boat trip by Rakan

I was in Aqaba with my mother, my father and my brother, Jaber. We wanted to go on a boat trip.

I was very excited.

The boat arrived. Jaber started to cry while we were walking onto the boat. "It's OK," said Mother.

My mother gave Jaber his favourite toy. There was a noise and the boat started. Jaber was very frightened.

Then, I had an idea. I took Jaber to the window.

"We can look at the sea." I said. Jaber smiled.

He watched the other boats. The trip was fun!

The Jordan Museum

The Jordan Museum is in Amman. It opened in 2013. The modern building is made of stone and glass.

The museum has lots of information about the history of Jordan. Inside the museum, there are more than 2,000 objects. The oldest objects in the museum are more than a million years old. Most of the objects from this time are made of stone.

Some of the objects in the museum are from the Roman era. They are made of clay, stone and glass.

Who works with Abdelrahman on his inventions?

The Young Inventor

Abdelrahman Alzorgan is an inventor from Jordan.

He was born in 1990 in Tafilah. His father was a farmer. When he was a child, Abdelrahman helped him on the farm. Life on the farm was difficult

5 because there wasn't enough water for the plants in the summer. In the winter, the plants got too cold.

While they were still at school, Abdelrahman and his brother Mohammad invented a new machine.

The machine watered plants in the summer and kept

10 them warm in the winter. The brothers wrote about the machine and entered a competition for students. Abdelrahman and Mohammad won a prize.

After he left school, Abdelrahman decided that he wanted to help more young people, so he taught

15 them about his ideas. He also started to work for a charity for young people.

Abdelrahman thinks that it's very important to have dreams for the future. His dream is to help other people and to make the world better.

My homework project this week is about the British Museum in London.

The British Museum

The British Museum is a very well-known museum in London. It has about 80,000 objects from all over the world. The building is spectacular, too. This is a photo of the museum.

You can visit the British Museum with a tour guide or you can use a guidebook. There are sometimes talks about some of the objects in the museum, too.

In this photo, you can see some jewellery. It is more than 2,000 years old! It is made of gold.

There are some beautiful mosaics in the British Museum, too. This is an interesting Roman mosaic. It's from a house in the first century. It has a lot of different fish on it.

There are also lots of vases, jugs and pots in the museum. The vase in this photo is Egyptian. It's made of glass. It's from the second century and it's very colourful.

I want to go to London to visit the British Museum in the future. There are so many fascinating things to see!

2 Choose, ask and answer

- farmer
- tour guide
- chef
- scientist

3 Read, ask and answer

The future of Dhana

- People in Dhana will build a small museum.
- People will open new shops.
- People won't hunt in the nature reserve.
- The plants and animals will be safe.
- People won't cut down trees.

Will people in Dhana build a small museum?

4 Ask and answer

Read the poem aloud. Find the rhyming words.

Our experiment by Mahmoud

If we put wood in water, it floats.
But if we use metal, it sinks.
What happens with plastic and glass?
Please tell me, what do you think?

Look at the things in the box.
Let's see if they sink or they float.
We'll do an experiment now.
Please give me the spoon and the boat.

5 Look and say

- the spoon
- the plane
- the boat
- the doll
- the jug
- the robot
- the bottle

What happens if we put the spoon in water?

If we put the spoon in water, it sinks.

6 Look and say

It's a jug. It's made of glass.

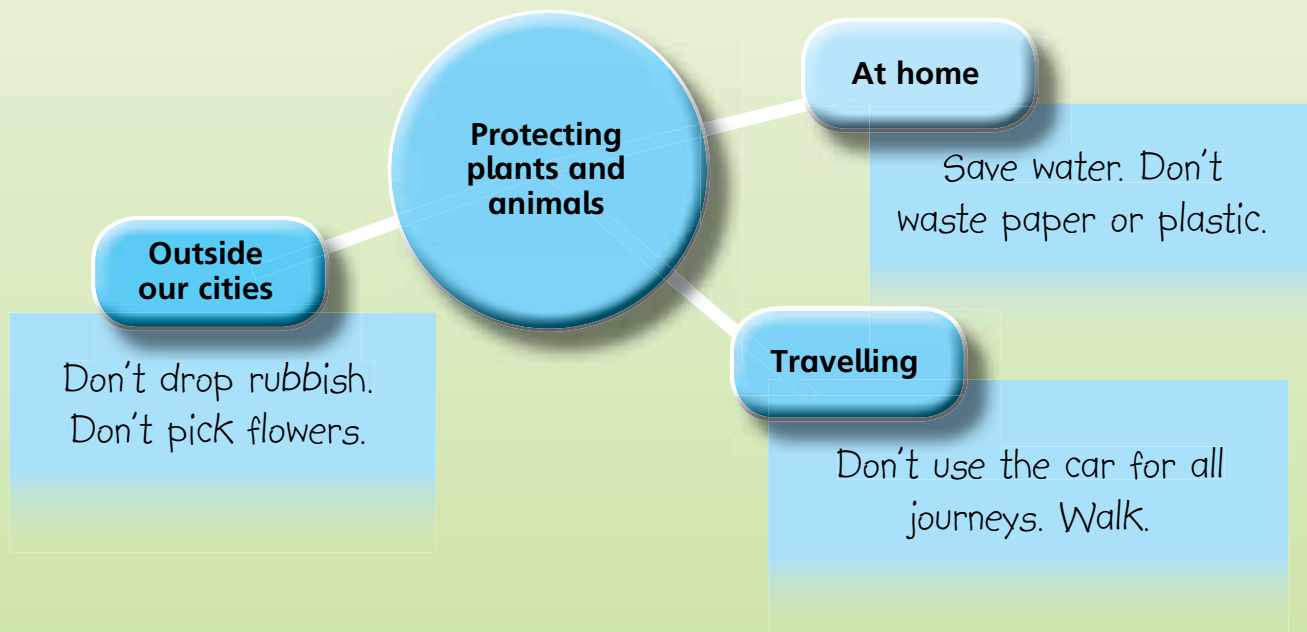

Project: Protecting our world

1 Read, ask and answer

- 1 What can we do at home to protect our world?
- 2 What can we do when we are travelling?
- 3 What can we do when we are outside our cities?

2 Make a mind map

3 Make a poster and tell the class

Protecting our world

By Nada

There are lots of ways we can help to protect our world. Save water. Use it carefully. Don't waste paper or plastic. You can use it again. Don't use the car for all of your journeys. Walk when you can. It's good for our world and it's healthy. Don't drop rubbish. Use a bin or take it home. Don't pick flowers.

Save water.
Use it carefully.
